

Our welfare and prosperity depend on us being able to operate in a safe and secure environment. Sadly, in a world increasingly full of risk, we have to focus even more on our security challenges. When we do, however, most of us focus on the downside. At G4S, we believe that in every security challenge there is an opportunity to unlock hidden benefits that can help us to thrive and prosper.

The key to releasing wider benefits for our clients is to always look at the bigger picture and consider solutions that transform performance. To do this, we deliver world class project management that brings together our expertise in logistics, technology, managing the world's biggest force of security personnel, and the knowledge derived from providing security solutions in diverse regulatory environments in over 110 countries around the world. By doing this, we offer governments and businesses secure solutions that deliver more than the sum of their parts.

By looking at the challenge of securing the retail environment more holistically, retailers can protect assets, reduce costs and deliver a better experience for the customers they serve.

Recognise that the most secure and beneficial solutions come from understanding the challenges of securing the retail environment and the interdependence of parts. Let us help you to see the opportunities that exist in the challenge of securing your world.

**Transforming challenges
into opportunities.**
