

At the core of our operations is the ability to combine the best of our people, risk, technology, and data services. We do this through transparency and a coordinated approach to serve our customers with end-to-end, flexible, and scalable integrated security solutions.

FOCUS

Our team has years of extensive knowledge and understanding of the Financial Institution security sector and we remain focused on providing a comprehensive list of banking security services and financial solutions specifically tailored to your business environment and needs. We continuously evolve and evaluate our procedures and protocols and we know where we can provide help and insight.

CUSTOMER SERVICE

Provide a concierge welcoming presence for your customers and visitors specifically trained and selected for financial environments.

SAFETY

Keep your business safe and secure while helping to mitigate risk and safeguarding you and your customer's assets by having a physical and visible presence, armed or unarmed security.

TRAINING

We provide training for armed and unarmed guarding, situational awareness, bank robbery procedures, identifying potential crimes such as physical ATM breaches, or potential threats.

Our understanding of this industry can help guide and provide you with armed or unarmed Security Professionals and customised services for facilities such as retail branches, data centres, corporate offices, trading floors, and ATM centres. We connect and partner with some of the industry's leading banking security services partners and groups to stay in tune with recent developments, industry trends and threats - always enhancing your company's brand and providing peace of mind for those with who we interact.

STRATEGY

We understand the concerns and challenges your company faces which is why we stay one step ahead of criminals to keep your facility, employees, and financial assets safe and secure.

OUR COMMITMENT TO CUSTOMERS

- ▶ **Easy to do business with:** With proven tools and processes we continue to find new ways to bring value to our customers
- ▶ **Unprecedented transparency:** Integrated business intelligence systems along with artificial intelligence driven workforce management tools provide our customers with unmatched insight into our services
- ▶ **The best hires for you:** Expanding our recruiting network, implementing sophisticated hiring tools and utilising the latest communication technologies ensure we support our customers with the most qualified, engaged, and motivated workforce

G4S INTEGRATED SECURITY

At the core of our business is the ability to combine the best of our people, risk, technology, and data services. We do this through transparency and a coordinated approach to serving our customers with end-to-end, flexible, and scalable integrated security solutions in any sector.

Applying a Risk-Based Approach

What do you **need to protect**?

What do you **need to protect it from**?

How do you most **effectively protect it**?

INTEGRATED SECURITY

Identifying the right mix of services to deliver a truly integrated security solution

RISK SERVICES

TECHNOLOGY & DATA SERVICES

PEOPLE SERVICES

Drive long-term customer value

PROFESSIONAL PEOPLE SERVICES

Our security professionals are recruited and carefully screened according to their talents, qualifications, experience, temperament and background. Whether a location requires security professionals to protect facilities or respond to incidents, operators or analysts to synthesise data, our team of security professionals is committed to delivering superior customer service.

- ▶ Patrol and Response Services
- ▶ Access Control and Monitoring
- ▶ Armed and Unarmed Options
- ▶ After-Hour Protection

- ▶ Design, Installation and Maintenance
- ▶ Cloud Based Systems and Software

MITIGATING RISK SERVICES

We offer education & training, security consulting, design & integration, corporate investigations and risk consulting and management services to help customers improve security awareness and design effective security solutions.

- ▶ Security Consulting
- ▶ Investigations and Intelligence
- ▶ Threat, Disaster, and Emergency Response
- ▶ Executive Protection and Global Travel Services

THE G4S RISK ASSESSMENT

Using our unique Risk-Based Approach, we assist our customers to build, customise and develop security risk management and mitigation programmes that are suited to their individual needs and environments.

We facilitate this through business development risk-based conversations using our G4S Risk Assessment tool, exploring the true security needs of your organisation.

This allows us to identify significant security risk exposures and the options available to help mitigate those risks.

The output of the G4S Risk Assessment is our unique G4S Risk Radar Report which identifies a set of potential risk types that you should pay the most attention to in your security risk management decision-making process.
