## **G4S International Finance plc**

### **Strategic Report for the Year Ended 31 December 2018**

The directors present their strategic report for the year ended 31 December 2018.

#### **Fair review of the business**

##### *Principal activities*

The principal activities of G4S International Finance plc ("the Company") are to enter into external debt funding arrangements and perform financial risk management hedging activities in order to support the G4S Group ("the Group"). In accordance with the Group Treasury policy, the Company only holds or issues derivative financial instruments to manage its own and the Group's exposure to financial risk. No derivative financial instruments are held for trading purposes.

##### *Financial performance*

The Company made a loss before income tax for the financial year of £13m (2017: £10m) as set out in the income statement on page 12. Loss before income tax includes £47m (2017: £39m) of finance income that the Company received in respect of the funding provided to other Group companies. This was offset by £60m (2017: £49m) of finance costs mainly relating to external bank overdrafts, loans and publically-listed loan notes.

Fair value losses from derivative financial instruments of £23m (2017: gains of £16m) were included directly in the income statement and gains of £31m (2017: £28m) were included in the hedging reserve.

#### **Future developments**

The directors expect the general level of activity of the Company to remain consistent with the prior years and the Company's principal activity is not expected to change substantially.

#### **Key performance indicators**

Given the straight-forward nature of the business, the directors are of the opinion that analysis using KPIs is not necessary for understanding of the performance or development of the business.

#### **Principal risks and uncertainties**

All businesses are subject to risk. Many individual risks are macro-economic or social in nature and thus they are common to many businesses. Below, the risks considered key to the Company have been listed. The key risks are those which would materially damage the Company's strategy, reputation, business, profitability or assets. This list is in no particular order and it is not an exhaustive list of all potential risks. Some risks may be unknown at present and it may transpire that risks currently considered immaterial become material in the future. The directors have also taken into account the potential impact of Brexit on the Company whilst considering the risks listed below.

##### *(1) Currency risk*

The Company and its parent, G4S plc, conduct their business in many currencies which reflects the Group's global operations. However, the Company presents its financial statements in Sterling. As a result, the Company is subject to the foreign exchange risk due to having internal and external loans in foreign currencies. The Company is also exposed to the risk as a result of engaging in the related hedging activities.

##### *Risk mitigation approach*

The Company and its parent, G4S plc, hedge a substantial portion of the Group's foreign currency risk by holding loans in foreign currencies.

## G4S International Finance plc

### Strategic Report for the Year Ended 31 December 2018 (continued)

#### Principal risks and uncertainties (continued)

(2) *Interest rate risk*

The Company enters into external borrowing agreements with fixed and floating interest rates. The floating rate exposes the Company to interest rate risk should the interest rates fluctuate rapidly or in an adverse manner.

*Risk mitigation approach*

The Company aims to obtain borrowing directly from the debt capital markets at fixed rates. Only where fixed rate borrowing is unavailable to the extent required, the Company utilises interest rate swaps. The Group's policy is to maintain a proportion of debts at fixed rate within the range of 25%-75%.

(3) *Commodity risk*

The Company had limited commodity risk during the year, however certain parts of the Group, particularly the Cash Solutions division, are exposed to the fluctuations in fuel prices. This is a result of the nature of the division's operations whose principal activity includes physical transport of cash.

*Risk mitigation approach*

When the commodity risk arises, it is managed through commodity swaps and commodity options. The arrangements with the subsidiaries are arranged back-to-back on identical terms. In this way the exposure to commodity risk is synthetically fixed and the associated cost volatility is greatly reduced. On occasion the Company acts as a market intermediary, approaching the banks on behalf of the Group to obtain swaps or options. The commodity hedging programme is under evaluation, and as a consequence there was no commodity hedging in place for the year ended 31 December 2018.

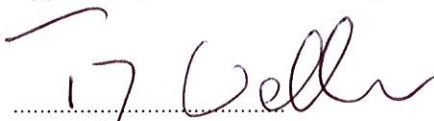

(4) *Counterparty credit risk*

The Company holds balances with multiple external third parties and internal counterparties. The counterparty default could lead to cash flow issues for the Company and adversely affect its ability to deliver services to customers.

*Risk mitigation approach*

The Company manages the external counterparty credit risk by setting minimum credit ratings for counterparties. The ratings are monitored on a regular basis. For treasury-related transactions, the policy limits the aggregate credit risk assigned to a counterparty. The utilisation of a credit limit is calculated by applying a weighting to the notional value of each transaction outstanding with each counterparty, based on the type and duration of the transaction. For transactions with internal counterparties, the risk is managed through monitoring of results and engagement with stakeholders.

Approved by the Board on 13 May 2019 and signed on its behalf by:

  
.....  
T P Weller  
Director

## **G4S International Finance plc**

### **Directors' Report for the Year Ended 31 December 2018**

The directors present their report and the audited financial statements for the year ended 31 December 2018.

#### **Directors of the Company**

The directors of the Company, who were in office during the year and up to the date of signing, were as follows:

C A V Barroche

S Lundsberg-Nielsen

T P Weller

#### **Company secretaries**

The Company secretaries, who were in office during the year and up to the date of signing, were as follows:

V J Patel (appointed on 22 January 2018)

W A Hayes (resigned on 22 January 2018)

#### **Results and dividends**

The results for the year are set out on page 12. The directors do not recommend the payment of a dividend (2017: £Nil).

A review of the progress of the Company's business during the year, likely future developments, key performance indicators and principal business risks are contained in the Strategic Report on pages 2 to 3.

#### **Going concern**

The financial statements have been prepared on a going concern basis, notwithstanding the Company's net liabilities, which the directors believe to be appropriate for the following reasons. The Company received a financial support letter from a parent company to provide sufficient financial assistance to the Company if and when it is needed to enable the Company to continue its operations and fulfil its currently anticipated financial obligations now and in the future. This undertaking is provided for a period of at least 12 months provided the Company remains a member of the parent company's group.

This should enable the Company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on a parent undertaking for financial support, the directors acknowledge that there can be no certainty that this support will continue, although at the date of the approval of these financial statements, they have no reason to believe that it will not do so.

Based on this undertaking the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

#### **Environmental matters**

The Company's business does not have a significant direct impact on the environment. However, the Company recognises the importance of its responsibilities to reduce environmental impact in areas such as energy usage, recycling or environmentally-friendly products. In these areas the Company operates in accordance with the policies of G4S plc which are detailed in the G4S plc's annual report.

#### **Political donations**

The Company made no political donations during the year (2017: none).

#### **Events since the end of the financial year**

A £300m bridge facility has been arranged in January 2019 for 1 year and a USPP of \$162m for 7 years and \$188m for 10 years were issued in May 2019 by the Company and guaranteed by G4S plc. Refer to note 13.

## **G4S International Finance plc**

### **Directors' Report for the Year Ended 31 December 2018 (continued)**

#### **Financial risk management**

The Company operates under the financial risk management objectives and policies of its ultimate parent, G4S plc, into which the results of the Company are consolidated. G4S plc's key objectives and policies include:

- Mitigating liquidity risk by ensuring there are sufficient undrawn committed facilities available to the G4S plc group;
- Conducting operating and financing activities, wherever possible, in the Company's local currency; and
- Utilising interest rate swaps and, to a lesser extent, forward rate agreements to manage future cash outflows.

Further details of the financial risk management objectives and policies of the G4S plc group, which the Company is a member of, are included in the consolidated financial statements of G4S plc.

#### **Corporate governance statement on internal controls and risk management in relation to the financial reporting process**

The directors are responsible for the system of internal controls designed to mitigate the risks faced by the Company and for reviewing the effectiveness of the system. This is implemented by applying Group's internal control procedures and its global risk reporting information system. The internal controls and processes are designed to manage rather than eliminate the risk of failure to achieve business objectives and can only provide reasonable and not absolute assurance against material misstatements or loss.

The main features of the Group's control systems include clearly defined reporting lines and authorisation procedures, a comprehensive budgeting and monthly reporting system and written policies and procedures. The Group's budget is approved by the G4S board, and regular updates are provided by the Group CFO on the outlook. Actual results are reported monthly and variances reviewed.

The risks faced by the Group are captured in a global risk reporting information system. These risks are reviewed formally at least annually, and the principal residual risks to the group as a whole are discussed in depth by the Group Executive Committee. The Board Risk Committee reviews the most significant risks on a regular basis, and the G4S plc board reviews regularly the overall impact of these major risks on the Group's activities.

#### **Directors' indemnity provisions**

The Company has granted an indemnity to one or more of its directors against liability in respect of proceedings brought by third parties, subject to the conditions set out in section 234 of the Companies Act 2006. Such qualifying third party indemnity provision remains in force as at the date of approving the directors' report.

#### **Statement of directors' responsibilities**

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice, comprising FRS 101 "Reduced Disclosure Framework", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

## **G4S International Finance plc**

### **Directors' Report for the Year Ended 31 December 2018 (continued)**

#### **Statement of directors' responsibilities (continued)**

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### **Disclosure of information to the auditors**

In the case of each director in office at the date the Directors' Report is approved:

- So far as each director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- They have taken all the steps that he/she ought to have taken as a director in order to make him/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

#### **Independent auditors**

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office and a resolution confirming their appointment will be approved at the Annual General meeting.

Approved by the Board on 13 May 2019 and signed on its behalf by:

A handwritten signature in dark ink, appearing to read 'T P Weller', is written over a dotted line.

T P Weller  
Director

## **G4S International Finance plc**

### **Independent Auditors' Report to the Members of G4S International Finance plc**

#### **Report on the audit of the financial statements**

---

##### ***Opinion***

In our opinion, G4S International Finance plc's financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 December 2018; the Income Statement for the year then ended, the Statement of Comprehensive Income for the year then ended, the Statement of Changes in Equity for the year then ended; and the Notes to the Financial Statements, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

---

##### ***Basis for opinion***

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### ***Independence***

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to the Company.

We have provided no non-audit services to the Company in the period from 1 January 2018 to 31 December 2018.

---

##### ***Our audit approach***

###### ***Overview***

- Our audit comprised a full scope statutory audit both in the current and prior years;
- Overall materiality was £10m (2017: £10m), based on approximately 0.5% of total liabilities;
- Valuation of derivatives was considered to be a key audit matter both in the current and prior years.

###### ***The scope of our audit***

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

## **G4S International Finance plc**

### **Independent Auditors' Report to the Members of G4S International Finance plc (continued)**

#### *Capability of the audit in detecting irregularities, including fraud*

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to tax regulations, unethical and prohibited business practices, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to areas where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. Audit procedures performed by the engagement team included discussions with in-house legal counsel, challenging assumptions and judgements made by management in their significant accounting estimates and testing journal entries.

There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

#### *Key audit matters*

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

#### **Key audit matter**

#### **How our audit addressed the key audit matter**

##### *Valuation of derivatives*

Interest rate swaps and cross currency swaps are used by the Company to manage the currency and interest profile of debt held by G4S group companies and currency exposures arising from Group entities that have a different functional currency to G4S group's functional currency. The total derivative asset and liability values as at 31 December 2018 were £36m (2017: £60m) and £10m (2017: £14m) respectively. Accounting for derivatives requires estimation to determine the fair value of the instrument and the application of hedge accounting requires formal designation and regular effectiveness testing. The fair value change in derivatives resulted in a direct impact to the income statement and reserves of £23m loss (2017: £16m gain) and £31m gain (2017: £28m gain) respectively. Refer to pages 28 to 36 in the financial statements.

We tested the valuation of the derivatives entered into by the Company by independently recalculating their fair value on a sample basis. We tested the completeness and existence of the derivatives through third party confirmation procedures. Our approach in respect of the derivatives designated in a hedge relationship included examining hedge documentation, testing of hedge effectiveness as well as assessing the related accounting entries including the cash flow hedge reserve. As a result of our work, we determined that the derivatives have been valued appropriately in the context of the financial statements taken as a whole and that adequate disclosures have been provided.

## G4S International Finance plc

### Independent Auditors' Report to the Members of G4S International Finance plc (continued)

#### *How we tailored the audit scope*

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

The Company is responsible for the treasury management operations of the G4S Group. The Company's principal activity is to engage in external debt funding arrangements and risk management hedging activities to support the G4S Group companies. Our detailed audit procedures are tailored to test material Income Statement, Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Financial Position accounts, together with related financial statement disclosures.

#### *Materiality*

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

<i>Overall materiality</i>	£10m (2017: £10m).
<i>How we determined it</i>	Approximately 0.5% of total liabilities.
<i>Rationale for benchmark applied</i>	G4S International Finance plc is a not-for-profit entity, as the Company's principal activity is to engage in external debt funding arrangements and risk management hedging activities to support G4S Group companies. As such, total liabilities is deemed the appropriate benchmark to apply.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above £0.5m (2017: £0.5m) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

---

#### ***Conclusions relating to going concern***

ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of the above matters.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern. For example, the terms on which the United Kingdom may withdraw from the European Union are not clear, and it is difficult to evaluate all of the potential implications on the Company's trade, customers, suppliers and the wider economy.

## **G4S International Finance plc**

### **Independent Auditors' Report to the Members of G4S International Finance plc (continued)**

#### ***Reporting on other information***

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion on, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

#### ***Strategic Report and Directors' Report***

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

---

#### ***Responsibilities for the financial statements and the audit***

##### ***Responsibilities of the directors for the financial statements***

As explained more fully in the Statement of Directors' Responsibilities set out on pages 5 to 6, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal controls as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

##### ***Auditors' responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditors' report.

## **G4S International Finance plc**

### **Independent Auditors' Report to the Members of G4S International Finance plc (continued)**

#### *Use of this report*

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

---

#### **Other required reporting**

##### ***Companies Act 2006 exception reporting***

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

---

#### ***Appointment***

Following the recommendation of the Board of Directors, we were appointed by the members on 4 June 2015 to audit the financial statements for the year ended 31 December 2015 and subsequent financial periods. The period of total uninterrupted engagement is 4 years, covering the years ended 31 December 2015 to 31 December 2018.

The financial statements on pages 12 to 37 were approved by the Board on 13 May 2019 and signed on its behalf by:

T P Weller  
Director

The notes on pages 16 to 37 form an integral part of these financial statements.

# **G4S International Finance plc**

## **Notes to the Financial Statements for the Year Ended 31 December 2018**

### **1 General information**

G4S International Finance plc is incorporated in the United Kingdom, registered in England and Wales, and domiciled in the UK. It is a private company, limited by shares. The Company's registered office is: 5th Floor, Southside, 105 Victoria Street, London, SW1E 6QT.

The financial statements are presented in sterling, which is the Company's functional currency, and in millions of pounds unless stated otherwise.

### **2 Accounting policies**

#### **Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **Basis of preparation**

The financial statements of the Company have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101). The financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006.

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

#### **Going concern**

The financial statements have been prepared on a going concern basis, notwithstanding the Company's net liabilities, which the directors believe to be appropriate for the following reasons. The Company received a financial support letter from a parent company to provide sufficient financial assistance to the Company if and when it is needed to enable the Company to continue its operations and fulfil its currently anticipated financial obligations now and in the future. This undertaking is provided for a period of at least 12 months provided the Company remains a member of the parent company's group.

The Company's bank and loan note borrowings are supported by guarantees from its parent company without which it would not be able to make such borrowings.

This should enable the Company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on a parent undertaking for financial support, the directors acknowledge that there can be no certainty that this support will continue, although at the date of the approval of these financial statements, they have no reason to believe that it will not do so.

Based on this undertaking the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **2 Accounting policies (continued)**

##### **Summary of disclosure exemptions**

The Company has taken advantage of certain disclosure exemptions in FRS 101, in part because its financial statements are included in the publicly available consolidated financial statements of G4S plc. Copies of the consolidated financial statements of G4S plc may be obtained by writing to the Company Secretary, G4S plc, 5th Floor, Southside, 105 Victoria Street, London, SW1E 6QT.

These disclosure exemptions relate to:

- the requirements of IAS 7 'Statement of cash flows';
- new IFRSs that have been issued but are not yet effective and which have not been applied by the Company;
- comparative information for the movements from the beginning to the end of the year in respect of the number of shares, and certain other additional comparative information;
- movements during the year in the number and weighted average exercise prices of share-based payments, how the fair value of services received or equity instruments granted was determined and the effect of share based payment transactions on the income statement and financial position; and
- certain related party disclosures on key management compensation and transactions entered into between two or more wholly-owned members of a group.

##### **New standards, interpretations and amendments effective for the first time**

###### *IFRS 9 - Financial instruments*

The Company has adopted IFRS 9 - Financial Instruments with effect from 1 January 2018, and has prepared its financial statements in accordance with the requirements of this new standard.

The new standard is applicable to the classification, measurement, impairment and re-categorisation of financial assets and liabilities. It also introduces a new hedge accounting model.

There has been no material change to the Company's statement of other comprehensive income, statement of changes in equity or statement of financial position on adoption. The Company has no financial liabilities held at fair value other than derivatives. The introduction of an expected-loss impairment model has had no material effect given the general quality and short-term nature of the Company's trade receivables. There has been no re-categorisation of assets on adoption of the new standard and the Company's existing hedging relationships have been assessed as compliant with the new requirements following a review of the existing hedging arrangements.

###### *Hedge accounting*

The Company has adopted the new general hedge accounting model in IFRS 9. This requires the Company to ensure that hedge accounting relationships are aligned with its risk management objectives and strategy, and to apply a more qualitative and forward-looking approach to assessing hedge effectiveness. Following a review of the Company's hedging arrangements, the Company has determined that its existing hedges are compliant with the new requirements. In accordance with the accounting policy, the Company has elected to include separately the cost of hedging reserve in equity.

###### *Transition*

Changes in accounting policies resulting from the adoption of IFRS 9 have been applied retrospectively. Other than described above, the Company has not made any voluntary elections on adoption.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **2 Accounting policies (continued)**

##### **Finance income and finance costs**

Finance income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable. This is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset's net carrying amount.

Finance costs are recognised as an expense in the income statement on the same basis.

##### **Foreign currencies**

The financial statements are presented in Sterling, which is the Company's functional currency. Transactions in currencies other than the functional currency are translated at the rates of exchange prevailing on the dates of the transactions. At each reporting date, monetary assets and liabilities which are denominated in other currencies are retranslated at the rates prevailing on that date. Non-monetary items measured at historical cost denominated in other currencies are not retranslated. Gains and losses arising on retranslation are included in the income statement.

##### **Current and deferred tax**

Tax is recognised in the income statement except to the extent that it relates to items recognised in equity, in which case it is recognised in equity or in other comprehensive income. The tax expense represents the sum of current tax and deferred tax.

Current tax is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of each deferred tax asset is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is measured based on the tax rates that have been enacted or substantively enacted by the end of the reporting period. Tax liabilities or refunds may differ from those anticipated due to changes in tax legislation, differing interpretations of tax legislation and uncertainties surrounding the application of tax legislation. In situations where uncertainties exist, provision is made for contingent tax liabilities and assets on the basis of management judgement following consideration of the available relevant information.

##### **Financial instruments**

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

##### *Trade and other receivables*

Trade receivables do not carry interest and are initially recognised at fair value. The carrying amount of trade receivables is reduced through the use of bad debt allowances. Bad debt allowances are determined using expected credit loss rates. The expected loss rates are adjusted for current and forward-looking local economic and market conditions.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **2 Accounting policies (continued)**

##### **Financial instruments (continued)**

###### *Amounts owed from/to group undertakings*

Amounts owed from/to group undertakings are recognised initially at fair value and subsequently stated at amortised cost.

###### *Cash and cash equivalents*

Cash and cash equivalents comprise cash balances and call deposits.

###### *Trade and other payables*

Trade payables are not interest-bearing and are stated initially at fair value and subsequently measured at amortised cost using the effective interest method.

###### *Derivative financial instruments and hedge accounting*

In accordance with the treasury policies of G4S plc, the Company only holds or issues derivative financial instruments to manage its exposure to financial risk. No derivatives are held for trading purposes. Refer to note 15 for a full description of these risks and information on how they are managed.

Derivative financial instruments are recognised in the statement of financial position at fair value, either as financial assets or liabilities.

The gain or loss on re-measurement to fair value is recognised immediately in the income statement, unless the derivatives qualify for hedge accounting. Where derivatives do qualify for hedge accounting, the treatment of any resultant gain or loss depends on the nature of the item being hedged.

If the financial instrument is a fair value hedge, then the change in the fair value of both the hedging instrument and the hedged item is recognised immediately in the income statement.

If the financial instrument is a cash flow hedge, then the change in the fair value of the portion of the hedging instrument that is determined to be an effective hedge is recognised in equity and subsequently recycled to the income statement when the hedged cash flow impacts the income statement. The ineffective portion of the fair value of the hedging instrument is recognised immediately in the income statement.

###### *Cost of hedging*

Currency basis is considered to be an unavoidable cost of the derivatives that the Company uses in the cash flow hedges. Currency basis spread is an element that is only present in the hedging instrument, but not in the hedged item, as the hedged item is exposed only to a single currency. As such, when designating the foreign currency transactions, the Company has excluded the currency basis spread. The change in the fair value which pertains to the currency basis is recognised in the statement of other comprehensive income as a separate component of equity, within the cost of hedging reserve.

###### *Bank borrowings and overdrafts*

The Company's borrowings comprise bank borrowings and bank overdrafts. Bank borrowings are initially recorded at the amount of proceeds received, net of transaction costs. Borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the income statement over the period of the relevant borrowing. Bank overdrafts comprise cash balances in an overdrawn position.

Interest expense on these balances is recognised in finance costs.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **2 Accounting policies (continued)**

##### **Loan notes**

The Company issued three loan notes which are listed on a publically-available stock exchange. The loan notes are measured at amortised cost and part of the loan notes is designated in a fair value hedge relationship. The hedge relationship leads to a fair value adjustment in relation to the hedge interest rate risk.

##### **Called-up share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

##### **Hedging reserves**

Included within the hedging reserves are the cash flow hedge reserve and the cost of hedging reserve. Cash flow hedge reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet occurred (net of tax). Cost of hedging reserve comprises the currency basis relevant to the cross-currency interest rate swaps.

#### **3 Critical accounting judgements and key sources of estimation uncertainty**

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of the Company's accounting policies. These judgements, estimates and associated assumptions are based on historical experience, current and expected economic conditions, and in some cases, actuarial techniques as well as the various other factors that are believed to be reasonable under the circumstances.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Although these judgements, estimates and associated assumptions are based on the management's best knowledge of current events and circumstances, the actual results may differ.

The judgements, estimates and assumptions which are of most significance in preparing the Company's financial statements are detailed below:

##### **Fair value of derivative financial instruments**

The fair value of derivative financial instruments is calculated using a discounted cash flow method. Observable market data are used as inputs. Management judgement is required to determine the relevant inputs, currency yield curves and discount rates.

#### **4 Operating segments**

It is considered that the Company has only a single operating segment. This is because the Company engages in a single principal activity, namely supporting fellow subsidiary companies in external debt funding arrangements and risk management hedging activities. Consequently, no additional operating segment information has been disclosed.

#### **5 Staff costs**

There were no employees during the current or prior year, and therefore the Company incurred no staff costs.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 6 Directors' remuneration

The directors received no remuneration or accrued pension benefits in respect of their services to the Company during both the current and prior year.

#### 7 Auditors' remuneration

Auditors' remuneration of £37,000 (2017: £25,000) was borne by another Group company. The Company did not incur any non-audit fees in the current or prior year.

#### 8 Finance income

	2018 £ m	2017 £ m
Interest receivable from group undertakings	<u>47</u>	<u>39</u>

#### 9 Finance costs

	2018 £ m	2017 £ m
Interest on bank borrowings and overdrafts	4	4
Interest on loan notes	31	28
Gain arising from fair value adjustment to the hedged loan note items	-	(2)
Loss arising from change in the fair value of derivative financial instruments hedging loan notes	-	2
Net interest rate swap expense	13	7
Bank arrangement fees	4	4
Foreign exchange and fair value losses	7	6
Ineffective portion of changes in fair value of cash flow hedge	<u>1</u>	<u>-</u>
	<u>60</u>	<u>49</u>

Included within foreign exchange losses is the release in respect of movement in the fair value of the derivatives as disclosed in note 16.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 10 Income tax

Tax charged/(credited) in the income statement is as follows:

	2018 £ m	2017 £ m
<b>Current taxation</b>		
UK corporation tax	-	-
<b>Deferred taxation</b>		
Deferred taxation	-	-
Tax expense/(receipt) in the income statement	-	-

The tax on loss before income tax for the year is higher than the standard effective rate of corporation tax in the UK (2017: higher than the standard effective rate of corporation tax in the UK) of 19% (2017: 19.25%).

The differences are reconciled below:

	2018 £ m	2017 £ m
Loss before income tax	(13)	(10)
Corporation tax at standard rate	(2)	(2)
Increase from transfer pricing adjustments	2	2
Total tax charge/(credit)	-	-

The standard effective rate of corporation tax for the current year is the lower than the standard effective rate of corporation tax for the prior year. The UK corporation tax rate decreased from 20% to 19% from 1 April 2017 and further reductions in the UK corporation tax rate will apply from 1 April 2020 when the rate reduces to 17%. All of these changes were enacted at the balance sheet date.

Under UK transfer pricing rules, the Company should impute interest on any inter-company loans which are not on arm's length terms. As a result, a taxable interest income of £11m (2017: £8m) has been claimed on its non-interest bearing inter-company loans with the corresponding interest deduction recognised in other UK Group companies.

Similarly, as the Company functions as a limited risk finance intermediary, it should earn no more than an arm's length margin on its finance administration activities. As a result, a taxable income of £2m (2017: 4m) has been imputed, with the corresponding deduction recognised in another UK Group company.

The combined impact of these transfer pricing adjustments is to increase the tax charge by £2m (2017: £2m).

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 10 Income tax (continued)

##### Deferred tax

Deferred tax assets and liabilities are as follows:

	Asset £ m	Liability £ m	Net deferred tax £ m
<b>2018</b>			
Derivatives	-	(2)	(2)
Tax losses carry-forwards	2	-	2
	<u>2</u>	<u>(2)</u>	<u>-</u>

	Asset £ m	Liability £ m	Net deferred tax £ m
<b>2017</b>			
Derivatives	-	-	-
Tax losses carry-forwards	2	-	2
	<u>2</u>	<u>-</u>	<u>2</u>

Deferred tax movement during the year is as follows:

	At 1 January 2018 £ m	Recognised in equity £ m	At 31 December 2018 £ m
Derivatives	-	(2)	(2)
Tax losses carry-forwards	2	-	2
Net tax assets/(liabilities)	<u>2</u>	<u>(2)</u>	<u>-</u>

Deferred tax movement during the prior year is as follows:

	At 1 January 2017 £ m	At 31 December 2017 £ m
Derivatives	-	-
Tax losses carry-forwards	2	2
Net tax assets	<u>2</u>	<u>2</u>

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 10 Income tax (continued)

Deferred tax assets and liabilities on temporary differences have been calculated using the UK corporation tax rate which will apply in the period during which they are expected to reverse.

Deferred tax assets and liabilities on temporary differences expected to reverse in the period from 1 January 2019 to 31 March 2020 have been provided at 19%. Deferred tax assets and liabilities on timing differences expected to reverse on or after 1 April 2020 have been provided at 17%.

At 31 December 2018, the Company had unutilised tax losses of approximately £9m (2017: £9m) available for offset against future taxable profits. The Company earns a small margin from its activities of a finance intermediary. Therefore, the Company is projected to have taxable profits for the foreseeable future and a deferred tax asset of £2m (2017: £2m) has been recognised on the unutilised tax losses.

#### 11 Trade and other receivables

	2018 £ m	2017 £ m
<b>Current trade and other receivables</b>		
Amounts owed from group undertakings (members of the G4S plc group)	2,058	2,085
Prepayments	2	-
Other receivables	2	3
Derivative financial instruments (see note 16)	-	31
	<u>2,062</u>	<u>2,119</u>
<b>Non-current trade and other receivables</b>		
Prepayments	-	2
Derivative financial instruments (see note 16)	36	29
	<u>36</u>	<u>31</u>
<b>Total trade and other receivables</b>	<u><u>2,098</u></u>	<u><u>2,150</u></u>

Included in amounts owed from group undertakings are loans of £2,054m (2017: £2,085m) which are unsecured and repayable on demand. Of these, loans of £695m (2017: £668m) are interest-free. Interest is charged on the remaining loans at a rate between 1.6% and 3-month LIBOR + 2.5 % (2017: LIBOR + between 1.5 % and 4%). All other amounts owed from group undertakings are trading in nature, unsecured, interest-free and repayable on demand.

Information on credit risk of receivables is detailed in note 15.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 12 Trade and other payables

	2018 £ m	2017 £ m
<b>Current trade and other payables</b>		
Accrued expenses	23	21
Amounts owed to group undertakings (members of the G4S plc group)	618	616
Derivative financial instruments (see note 16)	-	8
	<u>641</u>	<u>645</u>
<b>Non-current trade and other payables</b>		
Derivative financial instruments (see note 16)	<u>10</u>	<u>6</u>
	<u>10</u>	<u>6</u>
Total trade and other payables	<u><u>651</u></u>	<u><u>651</u></u>

Included in amounts owed to group undertakings are loans of £618m (2017: £616m) which are unsecured, interest-free and repayable on demand. All other amounts owed to group undertakings are trading in nature, unsecured, interest-free and repayable on demand.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 13 Bank borrowings, overdrafts and loan notes

	2018 £ m	2017 £ m
Bank overdrafts	221	217
Loan notes	1,385	1,328
Total bank overdrafts, bank loans and loan notes	<u>1,606</u>	<u>1,545</u>

The borrowings are repayable as follows:

On demand or within one year	221	662
In the second year	-	-
In the third to fifth years inclusive	448	-
After five years	937	883
Total bank overdrafts, bank loans and loan notes	<u>1,606</u>	<u>1,545</u>

Less amount due for settlement within 12 months (shown under current liabilities):

Bank overdrafts	(221)	(217)
Loan notes	-	(445)
	<u>(221)</u>	<u>(662)</u>
Amount due for settlement after 12 months	<u>1,385</u>	<u>883</u>

Analysis of bank overdrafts, bank loans and loan notes by currency:

	GBP £ m	EUR £ m	USD £ m	Total £ m
Bank overdrafts	221	-	-	221
Loan notes	-	1,385	-	1,385
At 31 December 2018	<u>221</u>	<u>1,385</u>	<u>-</u>	<u>1,606</u>
Bank overdrafts	145	-	72	217
Loan notes	-	1,328	-	1,328
At 31 December 2017	<u>145</u>	<u>1,328</u>	<u>72</u>	<u>1,545</u>

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 13 Bank borrowings, overdrafts and loan notes (continued)

The weighted average interest rates on bank overdrafts, bank loans and public loan notes at 31 December adjusted for hedging were as follows:

	2018	2017
	%	%
Bank overdrafts	2.0	1.3
Loan notes	2.7	2.7

At 31 December 2018, the Company's bank borrowings comprised overdrafts.

Together with G4S plc, the Company amended the available revolving credit facility in August 2018, reducing it from £1bn to £750m while extending the maturity for a further one and a half year to August 2023. As at 31 December 2018 there were no drawings from this facility. In addition, a £300m bridge facility has been arranged in January 2019 for 1 year and a USPP of \$162m for 7 years and \$188m for 10 years were issued in May 2019 by the Company and guaranteed by G4S plc.

Interest on the committed bank borrowing facility is at prevailing Libor or Euribor rates (with a floor of zero), dependent upon the period of drawdown, plus an agreed margin, and re-priced within one year or less.

The Company also has three public loan notes:

- €500m 1.500% note issued on 9 November 2016 maturing 9 January 2023;
- €500m 1.500% note issued on 2 June 2017 maturing 2 June 2024; and
- €550m 1.875% note issued on 24 May 2018 maturing 27 May 2025.

Additionally, €500m 2.625% note issued on 6 December 2012 matured during the year on 6 December 2018. All loan notes are stated at amortised cost. €100m (£90m) of the loan notes issued in June 2017 are designated in a fair value hedge relationship (2017: €120m (£107m) of December 2012 and €100m (£89m) of June 2017 loan notes) which has a fair value adjustment in relation to the hedged interest rate risk. Information on the significant assumptions underlying the valuation model used and the interest rates on the borrowings are disclosed in note 16.

The management of currency risk and interest rate risk is detailed in note 15.

The Group operates a multi-currency notional pooling cash management system with a wholly-owned subsidiary of an A-rated bank. At year-end, credit balances of £221m (2017: £217m) were pooled with debit balances of £99m (2017: £Nil), resulting in a net pool credit balance of £122m (2017: £217m). There exists a legal right of set-off under the pooling agreement. In accordance with IFRS interpretation Committee requirements, the cash and overdraft pool balances are presented gross in the statement of financial position.

#### 14 Called-up share capital

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **15 Financial risk review**

This note presents information about the Company's exposure to financial risks and the Company's management of capital.

##### **Credit risk**

The Company's largest debtors are G4S plc and G4S Finance Limited which comprise approximately 59% and 34% respectively (2017: 61% and 32% respectively) of the total non-derivative financial instruments balance as at 31 December 2018.

The Company does not hold any collateral over these balances and they are repayable on demand. The Company follows the Group Finance Manual guidelines with respect to assessing these balances for impairment. As at 31 December 2018, there was no allowance for doubtful debts (2017: £Nil).

The directors believe that the fair value of trade and other receivables, being the present value of future cash flows, approximates to their book value.

##### **Liquidity risk**

The Company mitigates liquidity risk by ensuring there are sufficient undrawn committed facilities available to it. For more details of the Company's bank overdrafts, bank loans and loan notes see note 13.

To reduce re-financing risk, Group Treasury obtains finance with a range of maturities and hence minimises the impact of a single material source of finance terminating on a single date.

Re-financing risk is further reduced by Group Treasury opening negotiations to either replace or extend any major medium-term facility at least 12 months before its termination date.

##### *Maturity profile of financial assets and liabilities*

The contractual maturities of financial assets and liabilities and their carrying amounts in the statement of financial position, including interest payments estimated based on expectations at the reporting date, are as follows (whereby positive figures designate inflow of cash and negative figures designate outflow of cash):

\* €120m (£107m) of December 2012 and €100m (£89m) of June 2017 public loan notes are held in fair value hedge relationships.

The fair values of the financial instruments above have been measured on the following bases:

- Derivative financial instruments: using techniques consistent with Level 2 of the valuation hierarchy, as disclosed in Note 16.
- Trade and other receivables, trade and other payables and overdrafts: these approximate to their book values, being the present value of future cash flows, given the short-term nature of these balances.
- Public loan notes: using techniques consistent with Level 1 of the valuation hierarchy (quoted prices, unadjusted, in active markets for identical assets or liabilities).
- Bank loans: these approximate to their book values, being the present value of future cash flows as bank loans, whilst drawn from a long dated facility, are reset every three months.

The gross cash flows disclosed in the tables above represent the contractual undiscounted cash flows relating to derivative financial assets and liabilities held for risk management purposes. These financial assets and liabilities are usually not closed out before contractual maturity. The disclosure presents both the net cash flow amount for derivatives that are net cash-settled as well as gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement, for example, cross-currency interest rate swaps.

##### *Set-off of financial assets and liabilities*

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. There were no material amounts offset in the statement of financial position or associated with enforceable master netting agreements.

#### 15 Financial risk review (continued)

##### Market risk

###### *Currency risk, forward foreign currency contracts and cross currency swaps*

The G4S Group conducts business in many currencies. Transaction risk is limited since, wherever possible, each company operates and conducts its activities in local currency. However, certain companies are subject to foreign exchange risk due to the translation of their foreign currency balances, for example, G4S International Finance plc. The Company acts as a market intermediary arranging forward foreign currency contracts with its relationship banks; and it enters back-to-back deals on identical terms with fellow subsidiary companies to synthetically fix part of their exposure and thus reduce their currency risk volatility. At 31 December 2018 there were no such contracts in place (2017: None).

The G4S Group presents its consolidated financial statements in Sterling. The Group is subject to foreign exchange risk as a result of the translation of the results and net assets of its foreign subsidiaries. The Company, together with its parent, G4S plc, hedges a substantial portion of the Group's exposure to fluctuations in foreign currencies against sterling by holding loans in foreign currencies, cross-currency swaps and, to a lesser extent, foreign currency contracts. On consolidation, foreign exchange differences arising on the translation of instruments meeting hedge accounting criteria are recognised in equity to match translation adjustments on foreign currency equity investments as they qualify as net investment hedges. However, in the Company's own financial statements, foreign exchange differences arising on the translation of these items are recognised directly in the income statement and are partially offset by foreign currency inter-company receivables.

Cross-currency swaps with a nominal value of \$449m (£352m) are in place and are held at fair value through the profit and loss for the Company (2017: \$449m or £332m). As described above, these swaps are designated as net investment hedges at the Group level.

Nominal value	Hedged risk	Maturity	Hedge ratio	Effective hedge rate	Change in value of hedging instrument	Change in value of hedged item	Change in value of hedging instrument	Change in value of hedged item
					2018	2018	2017	2017
					£ m	£ m	£ m	£ m
£244m	€270m	Jan-23	1:1	1.088	8	(8)	8	(8)
£346m	€400m	Jun-24	1:1	1.1570	12	(12)	11	(11)
£350m	€400m	May-25	1:1	1.1440	13	(13)	-	-

The Company has calculated the impact of a 10% movement in the exchange rates of its principal foreign currencies. On balances denominated in Euro, this would result in a £Nil (2017: £Nil) increase or decrease to operating profit. On balances denominated in US Dollar, this would result in a £14m (2017: £2m) increase or decrease to operating profit.

###### *Interest rate risk and interest rate swaps*

Borrowings at floating rates expose the company to cash flow interest rate risk and borrowings issued at fixed rates expose the company to fair value interest rate risk. The company manages these risks within policy limits approved by the directors. When fixed/floating interest rate debt in the preferred mix is unavailable directly from investors, interest rate swaps are utilised to create the desired blend and meet Treasury policy, with the proportion of fixed interest rate held reducing on a sliding scale over forward periods generally up to ten years.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 15 Financial risk review (continued)

##### Market risk (continued)

###### *Interest rate risk and interest rate swaps (continued)*

The interest on €100m of the public loan notes issued in June 2017 was swapped from fixed of 1.50% to floating using fair value interest rate swaps, until these loan notes mature in June 2024. The resulting average coupon on these loan notes was six month Euribor + 102bps (2017: + 102bps). These swaps have been documented as fair value hedges of the fixed interest public loan notes. Movements in their fair value are recognised directly in the income statement at the same time as the movement in the fair value of the public loan notes.

The public loan notes all have a coupon step up of 1.25% which is triggered should the credit rating of G4S plc fall below investment grade. G4S plc's credit rating at 31 December 2018 was BBB- with a stable outlook (2017: BBB- with a negative outlook), one rating notch above the sub-investment grade coupon step up trigger.

The Company's core borrowings are held in US dollar, Euro and sterling. Although the impact of rising interest rates is partly shielded by fixed rate loans and interest rate swaps which provide certainty on the majority of the exposure, some interest rate risk remains. A 1% increase in interest rates across the yield curve in each of these currencies with the 31 December 2018 debt position constant throughout 2019, would lead to an expectation of an additional interest charge of £2m (2017: £3m).

###### *Commodity risk and commodity swaps*

The G4S Group's principal commodity risk relates to the fluctuating level of diesel prices. The Company on occasions acts as a market intermediary arranging commodity swaps with its relationship banks, and has back to back deals on identical terms with fellow subsidiary companies in the G4S Group to fix synthetically part of their exposure and reduce their associated cost volatility. The hedging programme is under evaluation and as a consequence there was no commodity hedging in place at 31 December 2018 (2017: none).

##### Capital risk management

In August 2018 the Company renegotiated its multi currency revolving credit facility, reducing the total available facility to £750m (2017: £1bn) and extending the maturity to 2023. The debt maturity of €500m Eurobond was repaid in December 2018. The Group also issued a new €550m Eurobond in May 2018. The bond matures in May 2025 and pays an annual coupon of 1.875%.

At 31 December 2018 the Company had no drawings from its committed £750m bank facility (2017: None). Overall the debt portfolio has a medium to long-term debt maturity profile. With the support of G4S plc, the Company is currently well-placed to access finance from the debt capital markets and the bank market if required. Borrowings are principally in sterling, US dollars and Euros reflecting the geographies of significant operational assets and profits of the wider G4S Group.

In addition, a £300m bridge facility has been arranged in January 2019 for 1 year and a USPP of \$162m for 7 years and \$188m for 10 years were issued in May 2019 by the Company and guaranteed by G4S plc.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **15 Financial risk review (continued)**

##### **Counterparty credit risk**

The Company's strategy for credit risk management is to set minimum credit ratings for counterparties and monitor these on a regular basis.

For treasury-related transactions and transactions with internal counterparties, the policy limits the aggregate credit risk assigned to a counterparty. The utilisation of a credit limit is calculated by applying a weighting to the notional value of each transaction outstanding with each counterparty based on the type and duration of the transaction. The total mark-to-market value outstanding with each counterparty is also closely monitored against policy limits assigned to each counterparty. For short-term transactions (under one year), at inception of the transaction, the financial counterparty must be investment grade rated by either the Standard & Poor's or Moody's rating agencies. For long-term transactions, at inception of the transaction, the financial counterparty must have a minimum rating of BBB+/BAA1 from Standard & Poor's or Moody's.

Treasury transactions are dealt with the Company's relationship banks, all of which have a strong investment grade rating. Therefore, the credit risk on derivative transactions and cash and cash equivalents is not significant.

The risk on transactions with internal counterparties is managed through careful monitoring of monthly results and engagement with the stakeholders.

## G4S International Finance plc

### Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)

#### 16 Derivative financial instruments

The carrying values of derivative financial instruments at the reporting date are as follows:

	Assets 2018 £ m	Assets 2017 £ m	Liabilities 2018 £ m	Liabilities 2017 £ m
Cross-currency swaps designated as cash flow hedges	35	42	-	10
Cross-currency swaps not in a hedge relationship	-	16	9	2
Interest rate swaps designated as fair value hedges	1	2	-	1
Interest rate swaps not in a hedge relationship	-	-	1	1
Total	<u>36</u>	<u>60</u>	<u>10</u>	<u>14</u>
Less: amount due for settlement within 12 months (shown under current assets and liabilities):				
Cross-currency swaps	-	(29)	-	(8)
Interest rate swaps	-	(2)	-	-
	<u>-</u>	<u>(31)</u>	<u>-</u>	<u>(8)</u>
Amount due for settlement after 12 months	<u>36</u>	<u>29</u>	<u>10</u>	<u>6</u>

The gain/(loss) directly recognised in respect of movement in the fair value of derivatives is analysed below:

	Income statement 2018 £ m	Income statement 2017 £ m	Equity 2018 £ m	Equity 2017 £ m
Cross-currency swaps designated as cash flow hedges	-	4	31	28
Interest rate swaps designated as fair value hedges	-	(2)	-	-
Cross-currency swaps not in a hedge relationship	(23)	14	-	-
	<u>(23)</u>	<u>16</u>	<u>31</u>	<u>28</u>

Derivative financial instruments are stated at fair value, measured using techniques consistent with Level 2 of the valuation hierarchy. The fair values are calculated using discounted cash flow models. The relevant currency yield curve is used to forecast the floating rate cash flows anticipated under the instrument, which are discounted back to the balance sheet date.

## **G4S International Finance plc**

### **Notes to the Financial Statements for the Year Ended 31 December 2018 (continued)**

#### **17 Parent and ultimate parent undertaking**

The Company's immediate parent undertaking is G4S plc.

The Company's ultimate parent undertaking is G4S plc, a company incorporated in the United Kingdom. G4S plc is also the parent undertaking of both the smallest and largest groups which include the results of the Company and for which consolidated financial statements are prepared.

Copies of the consolidated financial statements of G4S plc are available upon request from the Company Secretary, 5th Floor, Southside, 105 Victoria Street, London, SW1E 6QT.

#### **18 Events after the balance sheet date**

In January 2019 the Group arranged a bridging facility of £300m for 1 year and a USPP of \$162m for 7 years and \$188m for 10 years were issued in May 2019, to finance upcoming debt maturities as described in note 15.
