

ELECTRONIC SECURITY SERVICES

G4S Electronic Security capability

G4S delivers Engineer, Procure, Install and Commission (EPIC), solutions.

We have over 20 years-experience of supporting remote sites. Our experts manage the full security systems projects lifecycle, from systems design and integration to maintenance and technology refresh.

ABOUT US

Backed by the global corporate footprint and purchasing power of G4S plc, G4S Risk Management is a leading provider of risk mitigation, secure support services and integrated solutions to governments, international agencies and multinational corporations, wherever they may operate.

G4S Electronic security specialists

- Provide electronic security design, installation, commissioning and training services.
- Expertise includes Risk Assessment, Vulnerability Assessment, Risk Mitigation, Product Selection, Solution Design and Implementation.
- In addition to Surveillance, Access Control, Intrusion Detection and Fire Detection, G4S Risk Management implements robust data centre and control room solutions and can advise on Electronic Security Policies and Procedures.
- Advanced technologies include Cyber security, UAV and Analytics to pro-actively recognise and protect against potential threats.
- G4S Electronic Security installations act as force multipliers; fully integrated with physical, mobile and static security and providing support for VIP protection, Aviation Security and Maritime Security Solutions.
- Integrated Security offerings provide clients with robust and cost effective solutions to complex security problems.

Our Vision

To become the leading partner of choice for the provision of broad spectrum risk management and support services in complex, low-infrastructure and challenging environments.

Our Mission

We will design, deliver and execute cost efficient risk management support services that enable our customers to conduct their business safely and successfully in complex, low-infrastructure and challenging environments.

G4S Experience

G4S provides and supports Access Control solutions to all US Marine Corps bases in the US, Germany, South Korea, UK, Afghanistan and Japan, at nearly 60 US Army bases, eight US Navy bases and facilities, and numerous Air Force bases.

This includes installation of CCTVs in remote sites and support contracts awarded in the Middle East and Africa region including Angola, Ghana and Iraq.

Certifications

G4S Risk Management carries certifications from major electronic security vendors and manages medium to large projects in line with the Project Management Body of Knowledge (PMBOK) methodology. All design and works are carried out to internationally recognized standards.
