

# INTELLIGENT PLUG & PLAY KEY MANAGEMENT

Traka 21's innovative plug n' play system provides businesses with the very latest in intelligent key management. Simple, efficient and cost-effective, Traka 21 helps trace and account for every key or keyset, which are individually locked in place, enabling that critical business operations are monitored and controlled.

Ensuring that the right keys are available to the right people is a concern for every organisation.

### Pin Code Entry

User is required to enter his/her unique PIN code to gain access to the cabinet.

### Permission-Based Access

All keys and keysets are individually locked by the Traka 21 unit. Green LEDs indicate those keys to which this user has access. Keys highlighted in red LEDs are locked in place.

### Key Positioning System

Amber light indicates return position.

### Convenient Data View & Analysis

Audit trails and reports can be viewed on-screen or exported to a USB drive for further review and analyses.

### Traka 21 iFob

Once attached to an iFob with a robust security seal, individual keys or keysets are assigned a specific receptor within the Traka cabinet and locked in place until released by an authorized user.

### Traka 21 Security Seal

The secure one-time security seal is cost-effective and simple to apply without the need for special tools.

# SMART LOCK SOLUTION

Easily upgrade your existing door lock to an access control solution.

Just remove the door's old cylinder and replace with ENTR.

Smartphone App

Fingerprint Wall Reader
