

“Spotters”

Rewarding you for Helping Us Achieve our 2022
Sales Goals

Why 'Spotters'?

- In 2022 we have formed a regional guarding team
- They need help identifying sites that might represent opportunity for guarding placements in the future
- So we created 'Spotters' a quick and easy way of identifying sites that may represent opportunity

How does it work?

- Whenever you or your are walking around and identify a site using security guarding presence - we'd love you to register it and share it with us
- We'll then make sure the data is recorded and salesforce will use the data as a basis to develop the account

What information do we want?

- Your Full Name
- Your Employee Number
- Your Phone Number and Email Address
- An indication of whether the security is delivered in house or outsourced
- If outsourced who the provider is
- Any other information that you think may help

Where is the form?
