# Securing Your World

# 1 About G4S

## About G4S

**G4S is the world's leading security solutions group, which specialises in outsourcing of business processes in sectors where security and safety risks are considered a strategic threat.**

G4S has a broad range of customers around the world but our strategic focus is on sectors where safety and security are key.

- We focus on providing secure facilities solutions, consulting, security systems, manned security and secure logistics to corporations and governments around the world.
- We have worked in Africa for over 50 years and now employ over 125,000 people in 26 countries. For more information on G4S, visit [www.g4s.com](http://www.g4s.com)

***G4S is the world's leading security solutions group, which specialises in outsourcing of business processes in sectors where security and safety risks are considered a strategic threat.***

# What We Do

## Risk Advisory Services

G4S has a risk consulting capability offering trusted security advice, risk assessments, mitigation strategies and integrated solutions.

G4S ensures that clients fully consider the risks they and their organizations may face, and offers solutions to mitigate these risks wherever possible.

With 50 years of experience in Africa and over a decade of first hand, front line involvement in Ghana, we combine local knowledge with international best practice, to advise on risk mitigation and to design effective security solutions.

## Monitoring and Response

On subscribing to the Monitoring and Response service, panic buttons will be installed at your premises.

In the event of an emergency, press the panic button to send an alarm to our 24 hour central monitoring station.

When an alarm is received, we dispatch the closest Response Team to your location to assist with security, fire, medical or other emergencies.

## Manned Security Services

G4S provides manned security services which are fully compliant with global best practice based on G4S worldwide standards;

- Access control
- Checking functions
- Static guards
- Supervision
- Patrolling
- Parking and traffic control
- Health & safety assistance
- Reception duties
- CCTV monitoring
- Venue security

Electronic Security  
Solutions

## System Design & Specification

We design and specify access & CCTV surveillance systems, gates, booms, turnstiles and perimeter defenses for projects of all sizes and complexity.

We specify the right products to meet your needs and your budget and ensure each product can be supported locally after installation.

We supply detailed plans, itemized bills of quantities, specifications, and if required we will assist you by writing tender documents and evaluating bids.

## Security System Installations

We design, install, maintain and monitor security systems including;

- Intruder alarms & detection systems
- Access control systems / biometric solutions
- Time & attendance management systems
- CCTV systems
- Fire alarm systems
- Real-time guard patrol systems
- Beams, gates and electric fencing
- Visitor management systems

## Systems Maintenance

Our qualified and experienced technical team handles maintenance requirements for all types of access control, CCTV, electric fencing, alarm systems and fire detection systems.

---

***Safety, Security and Service Excellence  
achieved through Innovation and Teamwork***

---

## CCTV Monitoring

We have the capability to monitor your Closed Circuit Television remotely at our 24/7 Central Monitoring Station. Our operators are highly trained and skilled at detecting suspicious or unsafe activity. 24hr Monitoring ensures immediate response to incidents. We offer recording and storage services which you can access to view playbacks at any time.

## Vehicle Tracking

We supply reports by vehicle and driver, and customize the information to provide you with the fleet management insight you require to promote safety and cost effectiveness.

Our solutions have been designed to help organisations:

- Implement a profitable telematics strategy.
- Connect directly to customers and offer value added services over the lifetime of the vehicle.
- Enable access to vehicle data to optimise its utilisation and improve productivity.
- Decrease fleet operational and maintenance costs.

## Journey Management

We provide executive, staff and crew transportation services including planning, scheduling, dispatching, pre-positioning services.

G4S CPO's have been responsible for the protection of officials, international business executives and celebrities.

Our airport meet and greet service assists customers with a safe and smooth passage through the airport.

## Access Control Systems

Our access control systems include:

- Biometric
- Keypad
- Proximity
- Turnstile and
- Speed Gate solutions.

## Visitor Management Systems

Our visitor management systems offer both visitor operated kiosks and receptionist generated badging solutions.

## Intruder & Fire Alarm Systems

Our intruder and fire alarm systems ensure automatic detection of unauthorized access and fire.

To verify the alarm we can link to a video detection system that you can view on your phone wherever you are. All systems are monitored around the clock at our central alarm station.

***G4S Secure Solutions has the expertise and experience to tailor a broad spectrum of security solutions and services to the needs of our customers***

## Ethics & Values

G4S operates in accordance with the Foreign Corrupt Practices Act of 1977 ("FCPA"), the UN's Voluntary Principles on Security and Human Rights ("VPSH") & the UK Bribery Act 2010 (c.23).

We act with  
**INTEGRITY AND RESPECT**

We are passionate about  
**SAFETY, SECURITY AND  
SERVICE EXCELLENCE**

We achieve this through  
**INNOVATION  
AND TEAMWORK**

## Corporate Citizenship

We ensure that we invest in the communities from which we recruit our staff and act as a responsible corporate citizen at all times.

Further details of worldwide initiatives can be found on the G4S website: [www.g4s.com](http://www.g4s.com)

## Event Security

G4S has a distinguished track record of securing sporting events, ensuring the safety and enjoyment of participants, employees, organisers and audiences across the world.

---

***We make a difference by helping people to operate in a safe and secure environment where they can thrive and prosper. We believe this role can only grow in importance.***

# 3 Why G4S

## Quality

As an ISO-registered company, we integrate our quality management system (QMS) processes and procedures with each quality control plan (QCP) we develop.

## Health & Safety

HSE is embedded in our culture and drives the way we conduct our business.

## Insurance

G4S maintains Group wide corporate general liability insurance and offers cover up to three times the monthly invoice value.

The company abides by the provisions of the Workman's Compensation Act 1987, which caters for injuries, disability and death in service.

Our employees have access to health care services and are provided with other welfare benefits.
