# TECHNOLOGY SERVICES AND SOLUTIONS

## END-TO-END NEEDS ANALYSIS & PROGRAM DEVELOPMENT

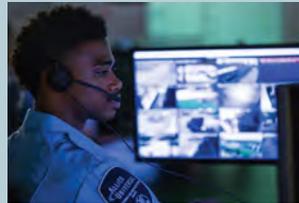

Satisfying compliance and regulatory issues in federal, state, and local governments—from secured facilities to administrative offices—requires the expertise of a technology systems solution provider who can proficiently and confidently navigate challenges in highly regulated environments.

Only Allied Universal® Technology Services provides a total, turnkey approach that begins with a comprehensive consultation, risk assessment, and evaluation. This initial assessment helps to ensure a successful implementation as we focus on your safety and security requirements, address current and future compliance and operating needs, and map the requirements necessary for system longevity.

## PROTECT ASSETS, MITIGATE RISK, & ACHIEVE ACCOUNTABILITY

We believe that the best solutions are cost-effective and highly reliable; they are custom-tailored to your agency's unique needs and requirements. We never offer a "one-size-fits-all" solution.

- ACCESS CONTROL
- VIDEO SURVEILLANCE
- INTRUSION DETECTION
- REMOTE SERVICES
- DOOR HARDWARE SOLUTIONS
- COMMUNICATION SYSTEMS
- CLEARED GUARD STAFFING

## STRICT ADHERENCE TO REGULATION & COMPLIANCE

Allied Universal® Technology Services has decades of experience providing systems and services to various government agencies and departments. Our expertise spans these entities, regulations, and more:

- > Department of Defense (DOD)
  - Homeland Security Presidential Directives (HSPD)
  - Federal Information Processing Standard (FIPS)
  - Personal Identity Verification (PIV)
  - ICD/ICS 705
  - Unified Facilities Criteria (UFC)
- > Department of Homeland Security (DHS)
  - Chemical Facility Anti-Terrorism Standards (CFATS)
- > Transportation Security Administration (TSA)
  - Transportation Worker Identification Credential (TWIC)
- > Department of Energy (DOE)
- > National Institute of Standards and Technology (NIST)
- > National Highway Traffic Safety Administration (NHTSA)
- > Food & Drug Administration (FDA)

## YOUR PARTNER FOR GOVERNMENT SECTOR SOLUTIONS

Allied Universal Technology Services deep knowledge of Government sector security requirements and our ability to develop solutions based on the specific needs of your agency, allow us to design and deploy technology in creative and non- disruptive ways. Key differentiators include:

- Program Management Office for long term, large scale, standardized deployments of Government approved security solutions.
- Consultive Services Group for threat and vulnerability assessments, policy and procedural development, creation of global operating concepts, and long term planning.
- Deep knowledge and experience within the Government sector including SCIF and SAPF security systems design and implementation.
- Certified operations team capable and experienced in long term, CONUS and OCONUS deployments.
- Strong emphasis on enterprise- class and mission critical applications.
- Design team and technicians trained and certified to perform work with numerous security systems manufacturers.

### Technologies Deployed in the Government Sector

Enterprise Card Access Systems	Visual Verification
Intrusion Detection	Vehicle Parking & Traffic Monitoring
Video Surveillance	Vehicle Management Systems
FIPS-201 Credentials	Guard Tours - Airport Patrolling
Mobile Credentialing	Video Intercoms
Personal ID Verification (PIV)	Counter UAV 'Drone' Solutions
Mobile Platform Solutions	Network Infrastructure
Risk Visualization	Video Walls
Visitor Management Solutions & Systems	Security Console Design
Visual Notification	Physical Access Control
Wide Area Voice	Two-Factor Authentication
Mass Notification	Biometrics
Behavioral Analytics	Barriers/Gates
Check-in Desk Enabling	Turnstiles
Computer Automated Dispatch	Perimeter Fence Protection
Security Console Design	Locks & Locking Hardware
Event Management	Aviation Specific Door Modes
Thermal Video Detection Video Management System Video	Passenger Segregation
Storage and Retention Arrays	Lane Breach Identification
Video Analytics	Metal Detection
Ground Based Radar (GBR)	Advanced Imaging Technology
	Cargo Security
	Integrated Alarm Management

### Small Business Partnerships

Allied Universal Technology Services has partnered with a number of small business companies throughout the United States to provide full turn key solutions for the Government. Our partners include HUBZone, GSA StarsII, Service Disabled Veteran, Women Owned, 8A, and Native Hawaiian small businesses.

Allied Universal Technology Services is committed to working with our small business partners to help meet the Government SBA annual requirements while also helping to grow our partners capabilities in the Government sector.

Visit us online to find the right integrated security solution for your facility.
